RESEARCH INTERESTS

Lead cybersecurity professional with 10 years driving technical strategy and team excellence. Expert in PowerShell, Bash, Go with track record of building and scaling engineering teams.

EDUCATION

Columbia University 2015
B.Tech. in Cybersecurity

PROFESSIONAL EXPERIENCE

AppSec Engineer, Twilio 2024-06 – Present
Designed zero-trust architecture using Elasticsearch, securing 100+ endpoints
Developed threat intelligence platform using Elasticsearch, tracking 500+ threats
Implemented SIEM solution using AWS Security Hub, processing 50000+ logs/day
Implemented security monitoring using PostgreSQL, detecting 100000+ threats

Security Architect, InfraCore 2019-12 – 2024-03
Created security awareness training using SOC2 Compliance, reducing phishing clicks by 62%
Implemented encryption solution using Figma, protecting 100+ records
Implemented identity management using SOC2 Compliance, securing 500+ user identities

Security Architect, Palantir 2018-08 – 2019-07
Implemented SIEM solution using Suricata, processing 500+ logs/day
Implemented SIEM solution using Azure Sentinel, processing 5000+ logs/day
Implemented SIEM solution using Suricata, processing 500+ logs/day
Built incident response automation using Go, reducing recovery time by 21%

AppSec Engineer, AgentForge 2017-11 – 2018-07
Built security automation using CrowdStrike, reducing incident response time by 60%
Implemented SIEM solution using SOC2 Compliance, processing 5000+ logs/day
Built security automation using CrowdStrike, reducing incident response time by 31%

Security Engineer, NeuroLink Labs 2015-02 – 2017-06
Implemented encryption solution using Figma, protecting 10000+ records
Created vulnerability management program using Trivy, reducing CVEs by 24%
Designed zero-trust architecture using Trivy, securing 100000+ endpoints
Conducted penetration testing using Sigma, identifying 100000+ vulnerabilities

TECHNICAL PROFICIENCIES

PowerShell, Bash, Go, C, Metasploit, Sigma, OWASP ZAP, Burp Suite, Suricata, SonarQube, CrowdStrike, Hashicorp Vault, Redis, Elasticsearch, AWS Security Hub, Azure Sentinel, GCP Security Command Center, Zero Trust Architecture, Incident Response, SOC2 Compliance

SELECTED PROJECTS

DataPipe CLI [Suricata, Bash, PowerShell] — Developed Access Control System using Suricata, reducing processing time by 60% through algorithmic improvements

PDF Parser Toolkit [Metasploit, Sigma, Go] — Built Security Awareness Training using Metasploit and Go, enabling automated processing and improving efficiency by 40%

Log Aggregator [Go, OWASP ZAP, PowerShell] — Created Security Dashboard leveraging OWASP ZAP for core functionality and PowerShell for optimization

PUBLICATIONS & OTHER

Employee of the Quarter — Company Internal 2025

Passionate about developer tools and building technology that makes a difference.
