Leadership Experience

Data Analyst

2022-05 – Present

CloudNova

Built real-time analytics dashboard using AWS SageMaker, used by 1000+ stakeholders

Built end-to-end ML pipeline using Dagster, processing 5000+ samples daily

Created feature engineering pipeline using Databricks, reducing preprocessing time by 30%

Established MLOps practices using Dagster, reducing model deployment time by 34%

AI Engineer

2019-11 – 2022-01

NeuroLink Labs

Built end-to-end ML pipeline using Kubeflow, processing 5000+ samples daily

Established MLOps practices using Azure ML, reducing model deployment time by 59%

ML Engineer

2017-01 – 2019-06

Anthropic

Built real-time analytics dashboard using Dask, used by 1000+ stakeholders

Developed data visualization tools using PostgreSQL, used by 10000+ analysts
