

Sharon Boyd

Data Science / ML / AI — West Claudia, Netherlands

sharon.boyd@protonmail.com · 400.376.6177x115 · <https://linkedin.com/in/sharon-boyd> · <https://github.com/sharonboyd>

Profile

Seasoned software professional with deep expertise in R, Julia, and Python. 8 years of experience delivering mission-critical systems.

Experience

AI Engineer	at Stripe	2023-04 – Present
Built end-to-end ML pipeline using Python, processing 1000+ samples daily		
Built ML model serving infrastructure using XGBoost, handling 500+ predictions/day		
Built ML model serving infrastructure using LLM Evaluation, handling 10000+ predictions/day		
Data Scientist	at PipelineIO	2021-11 – 2022-12
Created feature engineering pipeline using BigQuery, reducing preprocessing time by 60%		
Built end-to-end ML pipeline using AWS SageMaker, processing 1000+ samples daily		
Data Scientist	at Airbnb	2017-12 – 2021-09
Developed ML models using Dask, improving prediction accuracy by 28%		
Implemented NLP solution using Prompt Engineering, processing 100+ text documents daily		
Implemented NLP solution using LightGBM, processing 100000+ text documents daily		
Created feature engineering pipeline using Dask, reducing preprocessing time by 56%		

Education

B.Eng., Software Engineering	2016
University of Washington	

Technical Skills

R, Julia, Python, TensorFlow, OpenAI API, LangChain, Neptune, NumPy, Polars, Pandas, Airflow, Redshift, Snowflake, Lambda Labs, Bedrock, Databricks, MLOps, NLP, RAG, LLM Evaluation, Computer Vision

Projects

Deployment Dashboard — Developed Recommendation Engine using Julia, reducing processing time by 60% through algorithmic improvements

Health Check Service — Implemented Feature Store using R, achieving 99.9% uptime and handling 50k+ requests daily

Other

Hobby: Photography

Hobby: Learning new languages

Award: Employee of the Quarter — Google DevFest 2022
