

Kelly Owen

Backend Engineering · 10.2 years · Jacksonmouth, UK

kelly.owen@gmail.com · 001-661-969-2845x1154 · <https://linkedin.com/in/kelly-owen>

Professional Profile

Lead backend engineering professional with 10 years driving technical strategy and team excellence. Expert in Python, Kotlin, Node.js with track record of building and scaling engineering teams.

Core Competencies

Python · Kotlin · Node.js · Ruby · PHP · ASP.NET · Actix · CockroachDB · PlanetScale · Supabase · GitHub Actions · Git · Jenkins · Nginx · Azure · Render · Heroku · AWS · Claude API · Anthropic · Azure OpenAI · Replicate · Google Gemini · Scrum · CI/CD

Professional Experience

Software Engineer at Salesforce (2022-04 – Present)

- Implemented caching layer with LlamaIndex, reducing database load by 57%
- Built automated CI/CD pipelines with Python, reducing deployment time by 67%
- Created authentication and authorization system using LlamaIndex, securing 50000+ user accounts

AI Engineer at SkillBridge (2020-02 – 2022-02)

- Optimized database queries using Vercel, improving query performance by 18%
- Designed and implemented message queue system using Nginx, processing 100+ messages/hour
- Designed and implemented microservices architecture using Vercel, handling 100000+ concurrent users
- Designed and implemented message queue system using LLM Integration, processing 1000+ messages/hour

Software Engineer at Quantum Edge (2015-07 – 2019-11)

- Built event-driven architecture using Java, processing 1000+ events daily
- Built event-driven architecture using Kafka, processing 1000+ events daily
- Implemented caching layer with GitHub Actions, reducing database load by 43%

Education

B.Tech. in Computer Science — MIT (2016)

Certifications

Google Cloud Professional Cloud Developer — Google
Oracle Certified Professional Java SE — Oracle
