Education

M.Eng. in Computer Science

2017

University of Edinburgh

Teaching Assistant

M.Eng. in Computer Science

2015

Stanford University

Projects

DataPipe CLI (2021)

Developed Prototyping Tool using Figma, reducing processing time by 60% through algorithmic improvements

Tech: Sketch, Figma, Adobe XD

Real-time Analytics Engine (2019)

Implemented Prototyping Tool using HTML, achieving 99.9% uptime and handling 50k+ requests daily

Tech: HTML, Adobe XD, Framer

Vector Search API (2021)

Developed Design Tokens using CSS, reducing processing time by 60% through algorithmic improvements

Tech: JavaScript, Adobe XD, CSS

Skills

CSS HTML JavaScript InVision Adobe XD Sketch Framer Figma Zeplin Maze
Adobe Creative Suite Firebase Vercel Netlify Usability Testing Prototyping

Internships / Experience

Design Lead at Block (2022-02 – Present)

Conducted usability testing using JavaScript, identifying 50000+ UX issues

Built interactive prototypes using Figma, reducing development cycles by 45%

Designed user interfaces using After Effects, improving usability by 44%

Product Designer at Figma (2020-07 – 2021-12)

Built design collaboration workflow using Storybook, reducing review time by 59%

Built design collaboration workflow using Maze, reducing review time by 37%

Product Designer at Shopify (2018-06 – 2020-06)

Conducted user research using Figma, gathering insights from 50000+ users
Created information architecture using Firebase, improving navigation by 26%
Conducted user research using Prototyping, gathering insights from 500+ users
Created motion design using Figma, increasing engagement by 51%

UI Designer at CodeReview.io (2016-11 – 2018-03)

Created brand identity using Figma, applied across 500+ touchpoints
Designed user interfaces using Figma, improving usability by 47%
Built design collaboration workflow using Hotjar, reducing review time by 31%
