Scrum

Internships / Experience

Backend Developer at Amazon (2021-11 – Present)
Designed and implemented message queue system using C#, processing 50000+ messages/hour
Developed real-time data processing pipeline using Event-Driven Architecture, handling 5000+ documents/second

Backend Developer at Tesla (2020-11 – 2021-05)
Built event-driven architecture using Hugging Face, processing 5000+ events daily
Designed and implemented microservices architecture using Render, handling 5000+ concurrent users
Reduced infrastructure costs by 28% through optimization using Hugging Face

AI Engineer at DeployFast (2017-01 – 2020-07)
Architected and built RESTful APIs serving 5000+ requests/day using FastAPI, reducing response time by 42%
Built automated CI/CD pipelines with MongoDB, reducing deployment time by 27%
Implemented caching layer with MongoDB, reducing database load by 41%
Optimized database queries using MongoDB, improving query performance by 70%

Certifications

Certified Kubernetes Administrator — CNCF
