About Me

Senior cybersecurity engineer with 8 years of experience architecting and delivering enterprise solutions. Expert in Go, Rust, Metasploit with demonstrated leadership in cross-functional teams.

Education

M.Eng. in Electrical Engineering

2018

Purdue University — GPA: 3.50

InfoSec Society

M.Sc. in Software Engineering

2016

McGill University

Projects

Token Bucket Limiter (2025)

Implemented Security Audit System using OWASP ZAP, achieving 99.9% uptime and handling 50k+ requests daily

Tech: OWASP ZAP, Go, Rust

Token Bucket Limiter (2023)

Implemented Vulnerability Scanner using OWASP ZAP, achieving 99.9% uptime and handling 50k+ requests daily

Tech: OWASP ZAP, Go, Sigma

Health Check Service (2020)

Built Security Dashboard using Sigma and Snort, enabling automated processing and improving efficiency by 40%

Tech: Sigma, Snort, Go

Skills

Go Rust Metasploit OWASP ZAP Sigma Snort Nessus Wireshark Redis Elasticsearch
PostgreSQL AWS Security Hub GCP Security Command Center Azure Sentinel OWASP Top 10
Threat Modeling

Internships / Experience

AppSec Engineer at InfraCore (2023-11 – Present)

Implemented identity management using Burp Suite, securing 100+ user identities

Conducted penetration testing using Trivy, identifying 500+ vulnerabilities

Security Architect at Uber (2021-08 – 2023-09)

Designed zero-trust architecture using Snort, securing 100000+ endpoints
Built security automation using Sigma, reducing incident response time by 37%
Built secure CI/CD pipeline using Sigma, preventing 5000+ security issues

SOC Analyst at ResumeAI (2018-03 – 2021-05)

Conducted penetration testing using Threat Modeling, identifying 100000+ vulnerabilities
Implemented SIEM solution using Threat Modeling, processing 5000+ logs/day
Implemented SIEM solution using Go, processing 5000+ logs/day

Certifications

CISSP — ISC2

AWS Certified Security Specialty — Amazon Web Services
