

Colton Figueroa

Data Science / ML / AI — Michaelfort, India

colton.figueroa@yahoo.com · 001-773-693-6385x4678 · <https://linkedin.com/in/colton-figueroa> · <https://github.com/coltonfigueroa>

Profile

Senior technical leader specializing in data science / ml / ai with expertise in R, Julia, MATLAB. Proven success in technical vision, team development, and stakeholder management.

Experience

AI Engineer at Meta 2021-12 – Present

Developed data visualization tools using Databricks, used by 500+ analysts

Built ML model serving infrastructure using Databricks, handling 50000+ predictions/day

Built ML model serving infrastructure using Feature Engineering, handling 10000+ predictions/day

NLP Engineer at Vercel 2018-07 – 2021-08

Implemented NLP solution using Scala, processing 100000+ text documents daily

Created recommendation system using Hugging Face, increasing user engagement by 21%

Data Analyst at Block 2017-05 – 2018-06

Built end-to-end ML pipeline using PostgreSQL, processing 500+ samples daily

Created recommendation system using PostgreSQL, increasing user engagement by 46%

Education

B.Sc., Mathematics 2018

University of Melbourne

Technical Skills

R, Julia, MATLAB, LangChain, OpenCV, OpenAI API, NumPy, MLflow, Polars, Pinecone, Neo4j, Databricks, BigQuery, Lambda Labs, AWS SageMaker, Databricks, Deep Learning, Statistical Modeling, NLP, MLOps

Other

Reference: References available upon request

Hobby: Playing guitar

Spoken_language: Italian (Conversational)
