RESEARCH INTERESTS

Principal cybersecurity architect with 13+ years defining technical strategy for enterprise transformations. Subject matter expert in Go, Python, Rust.

EDUCATION

Technion M.Sc. in Data Science, GPA: 3.29	2014
UC Berkeley B.A. in Information Technology	2012

PROFESSIONAL EXPERIENCE

SOC Analyst , Meta Implemented encryption solution using Figma, protecting 100000+ records Developed threat intelligence platform using PostgreSQL, tracking 10000+ threats	2024-06 – Present
Security Engineer , PromptStack Implemented security monitoring using OWASP ZAP, detecting 500+ threats Implemented encryption solution using Figma, protecting 100000+ records	2019-06 – 2023-12
SOC Analyst , Shopify Built security automation using Go, reducing incident response time by 39% Implemented security monitoring using Go, detecting 5000+ threats Designed zero-trust architecture using Python, securing 500+ endpoints	2015-10 – 2019-02
SOC Analyst , Shopify Conducted penetration testing using Splunk, identifying 5000+ vulnerabilities Created vulnerability management program using Sigma, reducing CVEs by 69% Implemented identity management using Splunk, securing 500+ user identities Implemented encryption solution using Vue, protecting 500+ records	2012-05 – 2015-09

TECHNICAL PROFICIENCIES

Go, Python, Rust, Burp Suite, OWASP ZAP, Metasploit, Nmap, Trivy, SonarQube, PostgreSQL, Elasticsearch, Redis, AWS Security Hub, GCP Security Command Center, Threat Modeling, OWASP Top 10

SELECTED PROJECTS

PDF Parser Toolkit [Python, Metasploit, OWASP ZAP] — Developed Incident Response Platform using OWASP ZAP, reducing processing time by 60% through algorithmic improvements
