RESEARCH INTERESTS

Senior cybersecurity engineer with 6 years of experience architecting and delivering enterprise solutions. Expert in Go, PowerShell, Python with demonstrated leadership in cross-functional teams.

EDUCATION

Stanford University 2019
B.Eng. in Mathematics, GPA: 2.87

PROFESSIONAL EXPERIENCE

Security Architect, Twilio 2023-01 – Present
Implemented encryption solution using Vue, protecting 50000+ records
Built incident response automation using Hashicorp Vault, reducing recovery time by 15%
Built security automation using Hashicorp Vault, reducing incident response time by 31%
Implemented identity management using Hashicorp Vault, securing 10000+ user identities

SOC Analyst, Nvidia 2021-03 – 2023-01
Implemented encryption solution using Vue, protecting 10000+ records
Created vulnerability management program using Bash, reducing CVEs by 58%
Created security awareness training using Nessus, reducing phishing clicks by 38%

AppSec Engineer, DataPulse 2019-06 – 2020-10
Created vulnerability management program using GCP Security Command Center, reducing CVEs by 28%
Implemented SIEM solution using CrowdStrike, processing 500+ logs/day
Built security automation using Elasticsearch, reducing incident response time by 35%

TECHNICAL PROFICIENCIES

Go, PowerShell, Python, C, Rust, Suricata, Snort, CrowdStrike, Hashicorp Vault, Nessus, Trivy, MongoDB, Redis, Elasticsearch, PostgreSQL, Azure Sentinel, GCP Security Command Center, AWS Security Hub, SAST/DAST, SOC2 Compliance, OWASP Top 10

SELECTED PROJECTS

Graph Query Builder [Python, Snort, PowerShell] — Implemented Penetration Testing Framework using Snort, achieving 99.9% uptime and handling 50k+ requests daily

ML Model Registry [Go, C, Snort] — Implemented Encryption Utility using Snort, achieving 99.9% uptime and handling 50k+ requests daily

SmartCache [Go, Snort, Rust] — Implemented Malware Detection using Go, achieving 99.9% uptime and handling 50k+ requests daily
