

# Amanda Pratt

Backend Engineering — Port Zachary, Germany

amanda.pratt@outlook.com · 001-263-453-6541x951 · <https://linkedin.com/in/amanda-pratt> · <https://github.com/amandapratt>

## Profile

---

Senior technical leader specializing in backend engineering with expertise in Node.js, Go, Python. Proven success in technical vision, team development, and stakeholder management.

## Experience

---

**Platform Engineer** at InfraCore 2021-09 – Present

- Architected and built RESTful APIs serving 100000+ requests/day using TDD, reducing response time by 59%
- Architected and built RESTful APIs serving 100000+ requests/day using Jenkins, reducing response time by 64%
- Developed real-time data processing pipeline using Python, handling 1000+ queries/second
- Led migration from monolithic to microservices using TDD, improving system scalability by 32%

**AI Engineer** at CodeCraft Studios 2017-07 – 2021-06

- Created authentication and authorization system using Rails, securing 10000+ user accounts
- Reduced infrastructure costs by 19% through optimization using DynamoDB
- Mentored team of 3 junior developers on Kotlin best practices
- Led migration from monolithic to microservices using Agile, improving system scalability by 16%

**LLM Engineer** at Figma 2015-04 – 2017-06

- Designed and implemented message queue system using Terraform, processing 5000+ messages/hour
- Designed and implemented microservices architecture using Terraform, handling 100000+ concurrent users
- Created authentication and authorization system using Hugging Face, securing 1000+ user accounts

**Software Engineer** at CodeCraft Studios 2013-11 – 2014-12

- Implemented caching layer with FastAPI, reducing database load by 41%
- Optimized database queries using Node.js, improving query performance by 38%
- Built automated CI/CD pipelines with Google Gemini, reducing deployment time by 49%
- Led migration from monolithic to microservices using Node.js, improving system scalability by 24%

## Education

---

**B.Eng., Computer Science** 2013

Tsinghua University

**B.Eng., Mathematics** 2013

University of Melbourne

## Technical Skills

---

Node.js, Go, Python, Java, Django, ASP.NET, Gin, NestJS, Flask, Redis, PostgreSQL, Neon, Kafka, RabbitMQ, Kubernetes, Jenkins, Fly.io, Render, AWS, OpenAI API, Hugging Face, Replicate, Anthropic, AWS Bedrock, RAG Architecture, CI/CD, TDD, Scrum, Event-Driven Architecture

## Projects

---

**Prompt Playground** — Built Auth Service using Django and ASP.NET, enabling automated processing and improving efficiency by 40%

**ML Model Registry** — Built Database Proxy using Django and Gin, enabling automated processing and improving efficiency by 40%

**SmartCache** — Designed and implemented Payment Processing System with NestJS, integrating with Node.js for seamless data flow

## Other

---

Award: Employee of the Quarter — MLH 2020

Award: Best Paper Award — Company Internal 2023
