RESEARCH INTERESTS

Senior devops / sre / mlops engineer with 7 years of experience architecting and delivering enterprise solutions. Expert in Rust, Bash, YAML with demonstrated leadership in cross-functional teams.

EDUCATION

University of Washington M.Sc. in Mathematics	2017
University of Toronto B.Eng. in Artificial Intelligence	2018

PROFESSIONAL EXPERIENCE

SRE , Uber	2025-04 – Present
Created self-service provisioning portal using Chaos Engineering, serving 100000+ engineers Built automated backup solution using Pulumi, ensuring 10000% data protection	
SRE , PromptStack	2023-12 – 2024-11
Designed and implemented infrastructure as code using PowerShell, managing 10000+ servers Implemented log aggregation using PowerShell, processing 10000+ logs/day Implemented container orchestration using PowerShell, managing 50000+ containers Implemented log aggregation using PowerShell, processing 100000+ logs/day	
Cloud Engineer , Uber	2020-04 – 2023-11
Implemented security scanning using Bash, identifying 1000+ vulnerabilities Created monitoring and alerting system using ELK Stack, reducing MTTR by 56% Created monitoring and alerting system using Bash, reducing MTTR by 40%	
Release Engineer , PipelineIO	2018-08 – 2020-03
Designed and implemented infrastructure as code using MLflow, managing 100+ servers Implemented security scanning using MLflow, identifying 1000+ vulnerabilities	

TECHNICAL PROFICIENCIES

Rust, Bash, YAML, Helm, ArgoCD, Crossplane, CloudFormation, Ansible, Podman, K3s, Kubernetes, Buildah, Docker, GitLab CI, Argo Workflows, Thanos, ELK Stack, Datadog, Linode, DigitalOcean, Oracle Cloud, Azure, TorchServe, Seldon, Kale, MLflow, Kubeflow, MLOps, Platform Engineering, Infrastructure as Code

CERTIFICATIONS

Certified Kubernetes Administrator — CNCF, 2025

SELECTED PROJECTS

ML Model Registry [Bash, YAML, Rust] — Developed Kubernetes Cluster using Rust, reducing processing time by 60% through algorithmic improvements

PUBLICATIONS & OTHER

Volunteer coding instructor at Scott-Rodriguez Youth Program, 2021-Present
Best Paper Award — Company Internal 2024
