Professional Profile

Experienced software engineer with expertise in Rust, PowerShell, and Bash. Proven ability to lead technical initiatives and mentor junior team members.

Core Competencies

Rust · PowerShell · Bash · Go · OWASP ZAP · Snort · Suricata · Sigma · Burp Suite · Wireshark · Splunk · SonarQube · Nmap · MongoDB · Elasticsearch · Redis · PostgreSQL · AWS Security Hub · Azure Sentinel · SOC2 Compliance · Zero Trust Architecture · SAST/DAST · Incident Response · OWASP Top 10

Professional Experience

Security Engineer at PromptStack (2023-05 – Present)

- Built incident response automation using Nmap, reducing recovery time by 38%
- Implemented SIEM solution using Go, processing 1000+ logs/day

Penetration Tester at SkillBridge (2021-04 – 2023-03)

- Designed zero-trust architecture using Threat Modeling, securing 100000+ endpoints
- Implemented encryption solution using Figma, protecting 1000+ records
- Conducted penetration testing using Threat Modeling, identifying 10000+ vulnerabilities

Education

M.Eng. in Software Engineering — University of Toronto (2021)

B.Sc. in Cybersecurity — IIT Bombay (2021)
