

Eric Hunter

DevOps / SRE / MLOps | Fresher | West Janetview, Japan

eric.hunter@gmail.com | (289)902-3303 | <https://linkedin.com/in/eric-hunter>

About Me

Senior devops / sre / mlops engineer with 8 years of experience architecting and delivering enterprise solutions. Expert in Rust, Python, PowerShell with demonstrated leadership in cross-functional teams.

Education

B.Tech. in Computer Science UT Austin — GPA: 3.83 <i>Cloud Computing Club</i>	2018
M.Tech. in Electrical Engineering University of Toronto — GPA: 2.98 <i>Dean's List</i>	2018

Projects

Prompt Playground (2022) Implemented Kubernetes Cluster using HCL, achieving 99.9% uptime and handling 50k+ requests daily Tech: Python, HCL, Rust
Token Bucket Limiter (2024) Built Disaster Recovery System using HCL and Python, enabling automated processing and improving efficiency by 40% Tech: HCL, Python, PowerShell

Skills

Rust	Python	PowerShell	HCL	Pulumi	Crossplane	Istio	Docker	Podman	Buildah	Linkerd
Jenkins	CircleCI	GitLab CI	Tekton	VictoriaMetrics	PagerDuty	Opsgenie	Datadog	Grafana		
DigitalOcean	Oracle Cloud	AWS	MLflow	Kale	TorchServe	Kubeflow	Seldon	Zero Trust		
Incident Management	MLOps	Chaos Engineering	SRE Practices							

Internships / Experience

Infrastructure Engineer at Confluent (2023-02 – Present) Built CI/CD pipelines using Linode, reducing deployment time from 28s to 350ms Created self-service provisioning portal using Linode, serving 500+ engineers Established GitOps workflows using Linode, improving deployment frequency by 25% Created self-service provisioning portal using Linode, serving 10000+ engineers
Cloud Engineer at Tesla (2021-07 – 2022-09) Implemented log aggregation using Docker, processing 50000+ logs/day Established GitOps workflows using Docker, improving deployment frequency by 64%

Infrastructure Engineer at Stripe (2017-07 – 2021-03)

Optimized cloud infrastructure using ELK Stack, reducing costs by 28%

Designed and implemented infrastructure as code using ELK Stack, managing 10000+ servers
