

Tracey Smith

Lead Data Science / ML / AI | 8.0+ Years Experience

tracey.smith@yahoo.com | 001-708-869-7829x2216 | Pettybury, UK

<https://linkedin.com/in/tracey-smith>

Executive Summary

Lead data science / ml / ai professional with 8 years driving technical strategy and team excellence. Expert in SQL, Python, Go with track record of building and scaling engineering teams.

Leadership Experience

AI Engineer

2025-03 – Present

Palantir

Implemented A/B testing framework using Dagster, running 100000+ experiments
Created recommendation system using PyTorch, increasing user engagement by 39%
Implemented NLP solution using PyTorch, processing 100000+ text documents daily

Research Scientist

2021-11 – 2024-11

Notion

Developed ML models using Computer Vision, improving prediction accuracy by 57%
Implemented A/B testing framework using PyTorch, running 500+ experiments
Built end-to-end ML pipeline using PyTorch, processing 5000+ samples daily
Implemented A/B testing framework using Computer Vision, running 100+ experiments

Data Scientist

2017-10 – 2021-10

Stripe

Created recommendation system using MLOps, increasing user engagement by 49%
Implemented NLP solution using Dask, processing 5000+ text documents daily

Education

B.Tech. in Cybersecurity — McGill University, 2015

Key Skills

SQL | Python | Go | JAX | OpenAI API | LangChain | Airflow | MLflow | Dask | Redshift | Weaviate | Lambda Labs | Bedrock | A/B Testing | Fine-tuning | MLOps | Computer Vision
