

Christopher Palmer

Data Science / ML / AI · 10.4 years · West Candice, Australia

christopher.palmer@gmail.com · (406)248-4229x4057 · <https://linkedin.com/in/christopher-palmer> · <https://github.com/christopherpalmer>

Professional Profile

Lead data science / ml / ai professional with 10 years driving technical strategy and team excellence. Expert in Go, Julia, Python with track record of building and scaling engineering teams.

Core Competencies

Go · Julia · Python · Scala · PyTorch · Hugging Face · JAX · Weights & Biases · Airflow · Qdrant · Neo4j · Redshift · Snowflake · GCP Vertex AI · Hugging Face Endpoints · AWS SageMaker · Lambda Labs · Vector Databases · NLP

Professional Experience

LLM Engineer at DeployFast (2024-01 – Present)

- Developed ML models using OpenCV, improving prediction accuracy by 19%
- Implemented A/B testing framework using OpenCV, running 10000+ experiments
- Developed data visualization tools using Pandas, used by 5000+ analysts
- Developed data visualization tools using OpenCV, used by 1000+ analysts

AI Product Engineer at Microsoft (2021-04 – 2023-08)

- Created feature engineering pipeline using LangChain, reducing preprocessing time by 63%
- Developed data visualization tools using Polars, used by 1000+ analysts
- Developed computer vision models using LangChain, achieving 31% accuracy
- Implemented NLP solution using LightGBM, processing 500+ text documents daily

AI Product Engineer at Notion (2017-09 – 2021-03)

- Created feature engineering pipeline using Hugging Face Endpoints, reducing preprocessing time by 45%
- Designed data warehousing solution using Computer Vision, enabling analytics on 100000+ records
- Built end-to-end ML pipeline using Computer Vision, processing 5000+ samples daily

NLP Engineer at Anthropic (2014-11 – 2017-04)

- Implemented NLP solution using A/B Testing, processing 1000+ text documents daily
- Created recommendation system using Python, increasing user engagement by 15%

Education

Ph.D. in Artificial Intelligence — Columbia University (2015)
