

Matthew Flores

Data Science / ML / AI | Fresher | New Maria, Netherlands

matthew.flores@gmail.com | 812-388-0133 | <https://linkedin.com/in/matthew-flores>

About Me

Distinguished technologist with 13 years shaping data science / ml / ai practice. Deep expertise in Go, Python, R and proven ability to influence C-level decisions.

Education

M.Tech. in Software Engineering

2013

Columbia University

Skills

Go Python R Scikit-learn JAX Dagster MLflow Spark Pandas Neptune Databricks
BigQuery Weaviate AWS SageMaker Databricks Hugging Face Endpoints Lambda Labs Azure ML
A/B Testing Prompt Engineering NLP Deep Learning Fine-tuning

Internships / Experience

Research Scientist at Datadog (2023-05 – Present)

Established MLOps practices using R, reducing model deployment time by 50%

Created recommendation system using Weaviate, increasing user engagement by 56%

NLP Engineer at Stripe (2018-12 – 2022-12)

Implemented A/B testing framework using A/B Testing, running 5000+ experiments

Designed data warehousing solution using MLOps, enabling analytics on 10000+ records

Implemented NLP solution using A/B Testing, processing 100000+ text documents daily

LLM Engineer at Meta (2016-10 – 2018-10)

Developed ML models using Computer Vision, improving prediction accuracy by 19%

Developed data visualization tools using Pandas, used by 100000+ analysts

Built ML model serving infrastructure using Pandas, handling 10000+ predictions/day

Established MLOps practices using Computer Vision, reducing model deployment time by 20%

Data Scientist at Vercel (2012-12 – 2016-09)

Implemented A/B testing framework using JAX, running 100000+ experiments

Established MLOps practices using Bedrock, reducing model deployment time by 54%

Developed computer vision models using Bedrock, achieving 59% accuracy

Built end-to-end ML pipeline using TensorFlow, processing 100+ samples daily

Certifications

Microsoft Certified: Azure Data Scientist — Microsoft
