RESEARCH INTERESTS

Senior devops / sre / mlops engineer with 8 years of experience architecting and delivering enterprise solutions. Expert in Rust, Python, HCL with demonstrated leadership in cross-functional teams.

EDUCATION

UT Austin B.Eng. in Computer Science, GPA: 2.93	2019
Purdue University Ph.D. in Information Technology	2018

PROFESSIONAL EXPERIENCE

Cloud Engineer Created self-service provisioning portal using YAML, serving 10000+ engineers Optimized cloud infrastructure using YAML, reducing costs by 31% Implemented security scanning using YAML, identifying 10000+ vulnerabilities Built disaster recovery solution using YAML, achieving RTO of 79ms	, CloudNova 2023-01 – Present
Platform Engineer Created self-service provisioning portal using Pulumi, serving 500+ engineers Implemented container orchestration using Linkerd, managing 1000+ containers	, Snowflake 2020-04 – 2023-01
Cloud Engineer Created monitoring and alerting system using Jenkins, reducing MTTR by 28% Implemented log aggregation using K3s, processing 50000+ logs/day Built automated backup solution using K3s, ensuring 100000% data protection Implemented log aggregation using Incident Management, processing 100000+ logs/day	, Twilio 2018-06 – 2020-03

TECHNICAL PROFICIENCIES

Rust, Python, HCL, CloudFormation, CDK, Terraform, Helm, Crossplane, Skopeo, Linkerd, Kubernetes, Istio, Podman, GitLab CI, Jenkins, Argo Workflows, PagerDuty, VictoriaMetrics, Alibaba Cloud, Linode, Hetzner, DigitalOcean, MLflow, Kubeflow, Seldon, Kale, TorchServe, SRE Practices, GitOps, MLOps

CERTIFICATIONS

Google Cloud Professional Cloud Engineer — Google, 2023

PUBLICATIONS & OTHER

Playing guitar
Volunteer coding instructor at Mitchell Inc Youth Program, 2020-Present
