About Me

Engineering leader with deep technical background in Bash, C, and OWASP ZAP. 10 years of experience delivering enterprise-scale solutions.

Education

B.Tech. in Mathematics

University of Toronto

2014

Skills

- Bash
- C
- OWASP ZAP
- Burp Suite
- Wireshark
- Trivy
- Nessus
- Splunk
- PostgreSQL
- Redis
- AWS Security Hub
- Azure Sentinel
- OWASP Top 10
- SOC2 Compliance
- Incident Response
- Threat Modeling

Internships / Experience

SOC Analyst at Quantum Edge (2024-06 – Present)

- Implemented identity management using Python, securing 5000+ user identities
- Built secure CI/CD pipeline using Sigma, preventing 5000+ security issues
- Designed zero-trust architecture using Elasticsearch, securing 5000+ endpoints
- Implemented identity management using Sigma, securing 10000+ user identities

Security Architect at Twilio (2022-02 – 2024-06)

- Conducted penetration testing using Go, identifying 500+ vulnerabilities
- Implemented SIEM solution using PowerShell, processing 10000+ logs/day
- Created security awareness training using SonarQube, reducing phishing clicks by 31%
- Created security awareness training using SonarQube, reducing phishing clicks by 20%

Penetration Tester at Nvidia (2019-12 – 2021-12)

- Built secure CI/CD pipeline using Redis, preventing 5000+ security issues
- Implemented identity management using Redis, securing 10000+ user identities
- Created security awareness training using Redis, reducing phishing clicks by 70%

Security Architect at PromptStack (2017-03 – 2019-12)

- Built secure CI/CD pipeline using SOC2 Compliance, preventing 100+ security issues
- Implemented identity management using SAST/DAST, securing 10000+ user identities
- Built security automation using Threat Modeling, reducing incident response time by 65%
- Designed zero-trust architecture using Threat Modeling, securing 100+ endpoints

Security Architect at DataPulse (2015-04 – 2016-12)

- Implemented security monitoring using PowerShell, detecting 100+ threats
- Implemented encryption solution using Angular, protecting 100000+ records
